

YOUR MISSION ON EARTH

DECEMBER 2011

In 1980, Rumi and Khorshed Bhavnagri lost their sons Vispi and Ratoos in a car accident. Within a month and through a chain of people, they received a message that their sons wanted to communicate with them and they spoke to the boys through a medium, and were assured of their well-being. They had reached the Spirit World immediately and had been welcomed by their beloved grandfather, Popsie. The boys asked their parents to develop powers of concentration, so they could communicate safely and privately together through the method of automatic writing. In this way Vispi and Ratoos were able to advise and guide their parents constantly and give them their mission on Earth - to comfort and help people in need, to spread spiritual knowledge and how to stay on the Godly Good Path always. The book - The Laws of the Spirit World - was communicated by Vispi and Ratoos through the technique of telepathy to their mother and simultaneously reduced into writing by her. Topics from the book and other messages are contained in the VRRP Spiritual Learning Newsletters. In 2007 Khorshed Bhavnagri joined her family in the Spirit World, but her work is being continued by the VRRP Group. The Bhavnagri's story in detail is in the book - The Laws of the Spirit World.

YOUR MISSION ON EARTH

Your mission is a promise made by you to GOD when you are in the spirit world and is one of the main reasons we take rebirth on earth. As mentioned in previous newsletters we often forget our missions those being:

1. Self Improvement (newsletters # 1 & 2)
2. Selfless Service (newsletter # 5)
3. To use Individual Gifts and Talents for the Growth of Others - Your Mission.

The first two Missions, those of self-improvement and selfless service are common to all souls. Every soul has a third Mission as well, but the nature of this Mission differs from individual to individual. All these three Missions are interlinked – one cannot truly use or even know the true potential of their talents and gifts (third mission) without first improving spiritually and second serving others selflessly.

What is a Talent, Gift and Mission? How are they interconnected?

A talent refers to a skill such as dancing, singing, painting, sewing, carpentry, cooking, and gardening.

A gift is God's grace. It is earned through self love, selfless service and self improvement. It is of a higher nature and can be defined as **Talent + Open Subconscious Mind == GIFT**. For example - a dedicated heart surgeon with an open sub conscious mind decides to use his talent for others. He may be given the gift of compassion, intuitive diagnosis and photographic memory so that he can continue to help more and more people selflessly. Other examples of gifts can be psychic abilities, automatic writing, being a good teacher, being a good listener, having the ability to draw people to you, being a good communicator, having the ability to bring comfort to someone who is ill or unhappy, being a good organizer/administrator or just having the ability to make people laugh. These are gifts that one can see, however good souls are also given many **unseen** gifts which we often take

for granted such as good health, wisdom, protection, a loving family and loyal friends.

When you use your talent wisely God Almighty gives you more of the talent as a gift. Gifts are acquired over lifetimes and at the same time if the gift is misused one can lose it. **Remember that every single human being is gifted. God would never send His child to Earth without His blessings.** However, it is up to each soul whether they choose to discover this gift, further enhance it and use it selflessly for others.

Gifts can also come in the form of a spiritual bonus. For instance in the example mentioned above, the surgeon gets the opportunity to manage a bigger hospital which allows him to reach, connect and serve many more people.

Coming back to our third mission, God has also given every soul a chance to do something wonderful on earth: your **Spiritual Mission**. Every human being wants life to be meaningful, and this happens when you find your purpose. That purpose is known as your mission, a promise between your soul and God, an oath you took in the spirit world before coming to earth. Mission is always selfless and for the brotherhood of mankind. Continuing with the same example of the surgeon, his mission is to heal people. To sum it up the surgeon had a great talent of learning and acquiring technical skills which helped him to become a doctor, but his focus on others, and opening of his subconscious mind helped him acquire the gifts of compassion, a photographic memory and the ability of intuitive diagnosis to further his talent and help more and more people. Also he was given the platform of the hospital as a bonus. Now the surgeon is using his talents and gifts to do his specific third mission of healing people.

The following are examples of a Spiritual Mission:

- **To help a particular person outside your nucleus (family or friend)** - helping your family and friends is your duty. However, you could choose to be of help to a healer (looking after all his needs) who is busy serving society through his healing, then your Mission would be to support that person while he did his Mission.
- **To help a particular group** - you may be part of an association which helps teenage children to handle their life's challenges, or to help alcoholics.
- **To do a specific task** – your Mission maybe to start a group where you make people learn to overcome drug abuse. Your mission could be something as simple as giving strength to people who are unwell by just sitting at their bedside and making them feel comfortable.
- **To discover or invent something** - You may be born on earth to create a specific invention for the betterment of humanity. Very often souls in the Spirit World already have created something new and you choose to be a channel through which the invention can come through.
- **To make people happy** - you may utilize any of your talents or gifts to do this, for example dancing, singing, listening to others' problems, teaching, imparting spiritual knowledge, and writing a book.

In all of the above you have to remember to **be humble**. If your ego becomes big then even if you have completed the task you will have failed your mission!

How will I know my Mission?

It will be something you **love to do**; it will come **naturally** to you and is for the **betterment of mankind**.

There are no hard and fast rules to recognize your Mission. Some people recognize it at a very early age and some people never recognize their Mission in this lifetime at all. **As a child** you may have had a love for something and were drawn towards doing it. This pull came from the subconscious mind. As you grew older, parental influences, the greed for money, peer pressure, fear of failure, wrong conditioning or belief system, a lack of courage to do something different or a lack of confidence may cause you to lose that gift or talent because you did not use it. Find what you love to do, what makes you happy and keep doing that. **Persistence is vital when pursuing your Mission**. We need to **keep searching** within and to **keep asking (praying) our subconscious mind to guide us to our Mission**. Failure is part of your training, do not fear it. When you improve spiritually, your subconscious mind will help you use your talents, acquire more gifts (by using the existing ones selflessly and improve spiritually) and eventually will lead you to recognize your Mission.

Unfortunately my talent and gift does not make me earn money. What do I do?

In today's world everyone has to earn money to survive. It may be that you are a doctor but your gift maybe gardening. How do you know that gardening is your gift? Because you love doing it, you have green fingers, gardening gives you joy and you love helping others garden and spreading knowledge of how to preserve the

environment. Does this mean that you have to give up being a doctor and become a gardener? NO. But see that you continue gardening as a **hobby**. **Sometimes your real work may not be your 9-5 job.**

Why do some people on Earth not know their Mission?

1. **Ask yourself if you are really on the Godly Good path.** Do you have a **genuine desire to change** and improve? Have you chosen to transform your negative soul characteristics into positive ones? Is your motive genuine? Are you kind and compassionate? Have you spread God's word? Are you humble? If you are on the wrong path, you are very far away from even your first Mission of self-improvement!
2. **Are you working on opening your subconscious mind?** Your subconscious mind has to be open to recognize your Mission. If you are extremely logical and ignore your instincts you are running away from your true purpose.
3. You may **not be ready** to do your Mission. You may not be ready to handle the responsibility. For example, if your Mission is to heal others, and if your Mission is revealed to you, you may become proud and fall spiritually.
4. **Is your search genuine? Are you consistent and committed to the path?** If you are consistent and committed then you will be directed to your true purpose.
5. You **might not understand the value of your Mission.** You may take it lightly or think it to be small and insignificant. For example you may be the CEO of a large corporation who has a gift of healing but due to a false belief system you might shrug it off and not focus on it.
6. Your **training may not be complete.** Before you can know your Mission you have to undergo a lot of training in order for you to learn certain qualities or overcome certain flaws. All training and tests leads to your Mission!
7. **You have made the wrong choice.** Certain events in your life draw you to your Mission. For instance a child experiences his father being charged wrongly in a criminal matter. This child could make the choice of either becoming a lawyer (to fight injustice and help others) or become a gangster (bent on taking revenge).
8. You may be **selfish and self-centered** and as a Mission is all about serving others and not yourself, obviously you will not know your Mission until your focus changes. You still have to improve yourself before you can be led to your Mission.
9. Are you **using your gifts and talents selflessly?** Are you being **grateful for your talents gifts?** Sometimes you may have many gifts and talents but you are so ungrateful and do not use them productively (for the good of others) and just keep asking for more! It is only when you utilize your talents and gifts for the growth of others that you get more and ultimately your Mission is revealed to you.

Why is it really important for me to do my Mission?

Your Mission gives you a chance to be God's channel and to fulfill your promise to Him. It is the very reason you were born on Earth, it gives **meaning** to your life. Accept that all of us have a purpose in life. If you do not

complete your Mission on Earth, no matter how much you have achieved in your earthly world, your life will be **considered a waste and your journey incomplete. At the same time you cannot avoid your duties and responsibilities towards your family and friends and yourself (self improvement and keeping healthy) and only focus on you Mission.**

Do you often feel that despite having all material comforts and a loving family there is still emptiness within you? This **emptiness** is felt because you are not doing your Mission. Your Mission is the highest form of Soul contentment and fulfillment. Trust the process of life; go through your tests and training bravely and smilingly. Understand the spiritual laws, do not oppose the flow.

You should not wait for the perfect situation. You should not wait until you are older. On the contrary if you can identify your Mission when you are young then you will find contentment earlier. Start NOW! Improve spiritually, open your subconscious mind, pray sincerely and genuinely ask for your Mission to be revealed to you. After the Shift of the Axis, in the New World, it will be difficult to rise spiritually, so use these years and your talents and gifts to do your Mission. Don't waste time!

REMEMBER THAT ABOVE ALL, WE ALL HAVE THE SPIRITUAL MISSION OF SPREADING GOD'S KNOWLEDGE, THAT IS, THE REAL SPIRITUAL LAWS, AND HELPING OTHERS TO RISE SPIRITUALLY.

“There is no religion in the Spirit World. We worship one God only.”

DO NOT ATTEMPT AUTOMATIC WRITING ON YOUR OWN

It is dangerous to do automatic writing on your own without a protective link and without following proper instructions.

Automatic writing can only be done with a proper protective link between one particular soul in the Spirit World with whom you wish to communicate. Only an experienced and linked person can join your link, which will ensure that no negative interference e.g. astral souls and unknown forces can harm you.

We also have to inform you that there are certain individuals who, with very basic information, are using this spiritual knowledge to misguide people through Automatic Writing. They have started practicing it on their own, without permission and without a protective link, and are giving the wrong advice to a great number of vulnerable people. Unless Automatic Writing is practiced with proper guidance and instruction, its effects can be extremely negative and dangerous. For instance, people might receive a wrong message that harms the person for whom it is intended, rather than helping them. Even if it is an emergency, we urge you to be aware of whom you turn to and it would be by far better, to call upon your sub-conscious mind and pray to God Almighty for guidance, rather than be misled into wanting inaccurate messages.

In case you have a genuine spiritual problem or need spiritual guidance, e-mail us at vrrp@vrrpspirituallearning.com. However, due to the volume of mail received, our response may be delayed. Also, we are unable to answer questions about material wealth, future predictions, etc.
